

Extension and outreach conducted by the institution through organized forums with involvement of community

1. Refrigerated Morgue storage cabinet (Shav Peti)

Provision for Refrigerated Morgue storage cabinet (Shav Peti) is done by the Shri Akola Gujarati Samaj's Trust for the social cause, Since 2010

Provision for Refrigerated Morgue storage cabinet (Shav Peti) is done by the Shri Akola Gujarati Samaj's Trust for the social cause. Since 2010

Provision for Refrigerated Morgue storage cabinet (Shav Peti) is done by the Shri Akola Gujarati Samaj's Trust for the social cause. Since 2010

Here are some potential benefits and considerations:

1. **Public Health and Safety:**A refrigerated morgue storage cabinet ensures the proper and hygienic preservation of deceased individuals, preventing the spread of diseases and ensuring public health and safety.
2. **Humanitarian Support:**The provision of a morgue storage facility demonstrates a commitment to humanitarian values and provides essential support during challenging times for families dealing with loss.
3. **Community Welfare:**This initiative contributes to the welfare of the community by addressing a crucial need for dignified and respectful handling of the deceased.
4. **Crisis Response:**In times of emergencies or natural disasters, having a refrigerated morgue storage cabinet can facilitate efficient and organized handling of deceased individuals, aiding in crisis response efforts.
5. **Cultural Sensitivity:**Providing a proper morgue storage facility reflects cultural sensitivity and respect for diverse mourning practices and rituals.
6. **Collaboration with Healthcare Services:**The provision of a morgue storage cabinet may involve collaboration with healthcare services, fostering a positive relationship between the community and healthcare providers.
7. **Capacity Building:**If the morgue storage facility is accessible to multiple organizations or communities, it can contribute to capacity-building efforts for handling deceased individuals in a systematic manner.

8. Disaster Preparedness: The presence of a refrigerated storage facility is crucial for disaster preparedness, ensuring that the community is equipped to handle a surge in the number of deceased individuals during emergencies.

2. Old age Rest and Recreation Room:

Old age Rest and Recreation Room, Maintained since 2010

The recreation and rest room provides a dedicated space for senior citizens to engage in recreational activities and relaxation, contributing to the improvement of their overall quality of life. Such a facility can support the physical and mental well-being of senior citizens by offering spaces for activities that promote health, social interaction, and mental stimulation.

Rest and Recreation Room for senior citizens, Maintained since 2010

3. Swatch Bharat Abhiyan : Morna Nadi swatchta Abhiyan :

The students of Smt. Maherbanu College of Science and Commerce joined one day Cleanliness Drive, initiated by Akola District Collector Mr. Astik Kumar Pandey (Akola Municipal Corporation) to clean the river invited all the citizens of the district to participate in the Cleanliness drive.

Students of Smt. MAherbanu College joined the Swatch Bharat Abhiyan : Morna Nadi swatchta Abhiyan initiated by Akola District Collector Mr. Astik Kumar Pandey (Akola Municipal Corporation) to clean the river invited all the citizens of the district to participate in the Cleanliness drive, January 2018

4. NO TOBACCO AWARENESS

Tobacco smoke contributes to indoor air pollution, which is a major threat to lung health. Every year, over 1 million deaths globally are caused by second-hand smoke. To create awareness regarding the harmful effects of tobacco, this session was conducted in collaboration with Rotary clubs. This session was not only organised for our college students but also for other school and college students. In this session all took Oath to keep themselves and society free from harmful tobacco.

NO TOBACCO AWARENESS : Seminar and Oath ceremony, 31st May 2018

5. THE ORPHANAGE: SYSTEM SOFTWARE

'The Orphanage' Project is one of such System resource Software, which is designed for the 'Model Orphanage' for storing and managing the different type of information in a simple, efficient and more easy way. This was developed by our students of B.C.A and donated to the Orphanage to update and maintain their data.

The Project Work Title "The Orphanage" created by the Students of BCA was donated to Model Educational and Social Welfare Society, Akola on 22/08/2018

6. SELF CONTROL: Hone their leadership skills and live a happy and know the Importance of forest. Shri Godbole, Forest Officer

Self-control is the art of making the right choices without feeling conflicted. A self-controlled person focuses only on his/her goals and makes decisions keeping the end goals in mind. The seminar was conducted by Shri Godbole, Forest Officer where he guided the students and conveyed how Self-control can help the students hone their leadership skills and also focused on the importance of forest and wild life. He also beacons the young generation with the Quoted words, “being developed doesn’t mean ruin nature and progress, in fact taking care of our mother nature and grow a gentleman.”

7. GANDHIJI'S VIEW on EDUCATION :Shri. Tushar Gandhi, Great grandson of Mahatma Gandhi, 12th November 2018

Education is backbone of society and is largely responsible for the upliftment. Gandhiji was a critic of traditional education and viewed that “By education, I mean an all-round drawing of the best in child and man in body, mind and spirit.” To shed some light on the principles and views on education, this session was organized where Shri. Tushar Gandhi, Great grandson of Mahatma Gandhi, guided the students for their overall personality grooming and ethical thinking. The session proved beneficial to the youngsters and it will help them to imbibe the moral values and ethics.

“Happiness doesn’t result from what we get, but from what we give.” – Ben Carson

With the same vision our visionary management members involved our college:forum members, teaching and non teaching staff in the noble cause of donating Pep Scan Machine.

8. TEENAGE & PROBLEMS: ‘MERA SAUNDARYA MERIPARIBHASHA’: 22nd December 2018

A session was successfully conducted in the college premises to shed some light on the problems faced by the teenage students. During the transition from childhood to adulthood, while their bodies are morphing into new shapes and sizes, teens struggle to come to terms with their bodies and get comfortable inside their own skins. Teens today are forced to live at a very superficial level, on the edge of society, with no acceptance and very little positive affirmation. This session proved helpful in guiding them to learn how to live from the internet and television and find emphasis on moral value or personal excellence.

15. 'MAMMOGRAPHY AND PAP SMEAR TEST': 19th February 2019

Mammograms and pap smears are an integral part of helping women stay healthy. Mammograms and pap smears aid in diagnosing and treating breast cancer, cervical cancer and other problems in the earlier stages of development, when they are easier to treat and when treatment has a higher chance of success. 'Mammography and Pap Smear Test' was conducted in college premises to provide a proper health check-up and creating awareness regarding myths and truths about cancer. To provide proper health check-up and awareness of myths and truths about cancer, Mammography project was undertaken in association with Inner Wheel Club of Akola Queens. Rotary, IW clubs in Akola and more than 22 NGOs worked together and this was conducted in college premises open for all, it was volunteered by the forum members and faculties of college.

16. BIRD WATCHING: 'Watching and Beyond'

'Watching and Beyond' was organized by the Department of Environmental Studies of the College in collaboration with Forest Department on 27 March 2019. More than 60 students and faculty from the College participated in the visit, which introduced the participants to the fascinating world of birds and bird watching. This began with an address by the Principal, Dr. Smita Shingrup wherein she shared with the participants her own illustrious relationship with the birds. This session was focused on Bird Identification and Monitoring. It also focused on 'Sight and Sound' in identifying birds.

Provision for oxygen machine for society (many patients were benefited by this during COVID)

Provision for oxygen machine for society (many patients were benefited by this during COVID)

The provision of an oxygen machine for the community, especially during the COVID-19 pandemic, is a significant extension activity that addresses a critical healthcare need. This

initiative aligns with the principles of social responsibility and community service. Here's how this provision helps the society:

1. **Healthcare Support during Emergencies:**The availability of an oxygen machine is crucial during health emergencies, such as the COVID-19 pandemic, providing life-saving support to individuals in need.
2. **Public Health Impact:**The provision of oxygen machines contributes directly to public health by assisting patients with respiratory issues, helping manage critical conditions, and preventing complications.
3. **Community Well-being:**Offering access to oxygen machines enhances the overall well-being of the community, demonstrating a commitment to the health and safety of residents.
4. **Disaster Preparedness:**This initiative reflects proactive disaster preparedness, ensuring that the community is better equipped to handle health crises and emergencies.
5. **Support for Vulnerable Populations:**Vulnerable populations, such as elderly individuals or those with pre-existing health conditions, benefit significantly from the availability of oxygen machines.
6. **Collaboration with Healthcare Providers:**Collaboration with local healthcare providers and professionals can enhance the effectiveness of this extension activity, creating a network of support for patient care.
7. **Educational Programs:**Conducting educational programs on the proper use of oxygen machines and basic healthcare practices can empower community members to respond effectively to health emergencies.
8. **Timely Response to Health Needs:**The provision of an oxygen machine ensures a timely response to the health needs of the community, reducing the risk of delayed medical interventions.
9. **Inclusivity and Equality:**Ensuring that the oxygen machine is accessible to all members of the community promotes inclusivity and addresses health disparities.
10. **Continuous Monitoring and Evaluation:**Regularly monitoring and evaluating the usage and impact of the oxygen machine ensures its effectiveness and allows for adjustments based on evolving community health needs.

22. 'NO PLASTIC' AWARENESS

To reduce the usage of plastic in everyday life every year, this day is observed to create awareness about the threat caused by plastic pollution to the natural environment, be it land or marine life. Following the directive from the state government to completely Ban Single use plastic our college has taken steps and some are in the process of finding ways to totally banish plastic outside college as well. After engaging in an external environment audit, the college has found different long term solutions to fight plastic use as follows:

- The college has ensured that the college canteen no longer uses plastic cutlery or containers for dispensing food or beverages.
- The college engages in waste segregation and has placed Green and Blue trash cans in all its corridors and student spaces.

The college led the 'No Plastic' Awareness as a part of "Say no to Plastics" campaign on 3rd July 2021. This project involved promoting the use of paper bags and creating awareness about harmful effects of plastic in the environment.

24.TREE PLANTATION AT NCC OFFICE

To inculcate the Environment friendliness & sustainability, Tree Plantation was organized on 3rd August 2021 at NCC office by Smt. Maherbanu College of Science & Commerce, Akola. Tree plantation means planting trees in different places like our school, parks, or even our neighborhood. It's like giving a new home to a tree. We dig a small hole, put the tree inside, cover its roots with soil, and then give it some water. Trees are like nature's superheroes; they give us fresh air to breathe, shade to relax in, and they make the world a better, greener place. When we plant trees, we're helping our planet and making sure we have a healthy environment for everyone.

Poster and Slogan Competition on 'No Tobacco Day' 8th May 2022

In a relentless pursuit of a healthier and smoke-free campus, Indian Dental Association organized the 'No Tobacco Day Poster and Slogan Competition.' This engaging initiative aimed to harness the creativity and awareness of younger generation to contribute towards a tobacco-free environment.

Participation in this competition not only raised awareness but contributed to fostering a community committed to health and well-being.

28. Tree Plantation: The tree plantation event at Gourakshan Road on 07/08/2022, led by Mr. Shubham Choudhary and BBA forum members in collaboration with Team Tarang Foundation, successfully achieved its goals. The initiative not only contributed to environmental conservation but also fostered a sense of community responsibility among the participants. The collaborative efforts demonstrated the potential for future engagements in similar community-based environmental activities. The primary objective of this extension activity was to contribute to environmental sustainability and community welfare through a collaborative tree plantation initiative with Team Tarang Foundation.

This resulted in Awareness campaigns were conducted among forum members to encourage participation and highlight the importance of tree plantation.

29. Eco Friendly Ganesha Idol by our students

Smt. Maherbanu College of Science and Commerce believes in fostering a sense of responsibility towards our environment, and this creation of 'Eco friendly Ganesha Idol' by one of our BBA students is a small yet impactful step towards a more sustainable future. Marvel at the craftsmanship of our student as he created Ganesha idols made from sustainable and biodegradable materials. This helped in :

- Contributing to the reduction of environmental impact during festivals.
- Supporting the use of sustainable materials, promoting responsible art and craftsmanship.
- Encouraging a shift towards eco-conscious celebrations within our community.

32.TREE PLANTATION AT PDKV

A tree plantation drive was held on 22nd December 2022 by Smt. Maherbanu College of Science & Commerce, Akola. It was done in Dr. Panjabrao Deshmukh Krishi Vidyapeeth (PDKV), aiming to enhance the greenery and environmental consciousness. Students enthusiastically planted saplings across designated areas. This collaborative effort signifies commitment of Smt. Maherbanu College of Science & Commerce, Akola. It was done to foster a greener campus and nurturing a sustainable environment for future generations.

Under the azure sky, the event commenced with a collective resolve to contribute to the campus ecosystem. A flurry of activity ensued as the students eagerly planted a diverse array of saplings across identified areas within PDKV. The air buzzed with enthusiasm and purpose as each sapling found its new home, symbolizing the collective commitment to sustainable practices. The drive fostered an invaluable sense of environmental stewardship and instilled a deep-rooted responsibility to nurture the newly planted greenery. This collaborative effort exemplifies the unwavering dedication of Smt. Maherbanu College of Science & Commerce, Akola to cultivating a greener, more sustainable environment within its precincts. It not only adds to the aesthetic beauty of the PDKV campus but also stands as a living testament to the university's pledge toward a more ecologically conscious future.

गाडगेबाबा पथकाला 'संकल्प'ची ११ लाखांची भेट

पत्रकार परिषद : सेवाभावी उपक्रमातून सेवाभावी संस्थांना मदतीचा हात

अकोला, दि. २५ (प्रतिनिधी)

धार्मिक आणि सांस्कृतिक क्षेत्रात वेगळी ओळख निर्माण करणाऱ्या संकल्प प्रतिष्ठानने सेवाभाव जपत दुसऱ्या एका सेवाभावी संस्थेला मदत करण्याचा संकल्प केला आहे. यावर्षी जिल्ह्यातील संत गाडगेबाबा आपत्कालीन बचाव व शोध पथकाला ११ लाखांचा निधी साहित्य स्वरूपात देण्यात येणार असल्याचे गुरुवारी पत्रकार परिषदेत माहिती देण्यात आली.

संकल्प प्रतिष्ठानच्या स्थापनेला सात वर्ष होत आले आहेत. या काळात कोरोना

महामारीचे दोन वर्षे वगळता दरवर्षी सेवाभावी संस्थेला निधी देण्यात येत असतो. या प्रतिष्ठानने आतापर्यंत नाम फाउंडेशन, मिशन दिलसा, गायत्री चालिकाश्रम, डा. हेगडेचर रक्तपेढी यांना थॅलेसिमिया रुग्णांकरिता, कस्तुरी चरिटेबल ट्रस्ट यांना मदत करून

संकल्प सिद्धीस नेला आहे. या ढोल पथकाची सुरुवातसात वादकापासून झाली आहे. आज या पथकात जवळपास १२५ वादकांचा समावेश आहे. यामध्ये डाक्टर, इंजिनिअर व शिक्षक आहेत. यावर्षी संकल्प प्रतिष्ठान मोठ्या प्रमाणात वादन करून संकलित निधी पिंजर येथील

संत गाडगेबाबा आपत्कालीन शोध व बचाव पथकाला ११ लाखांच्या साहित्याद्वारे देण्यात येणार आहे. यामध्ये ड्रोन कॅमेरा, स्कुबा डायविंग किट, रेस्क्यू बोट व जनरेटर आदी साहित्य राहणार आहे. त्यामुळे नागरिकांनी संकल्प प्रतिष्ठानचे वादन एकदा बघून या सेवाभावी उपक्रमास हातभार लावावा, असे आवाहनही यावेळी करण्यात आले. या पत्रकार परिषदेला निवासी उपजिल्हाधिकारी प्रा. संजय खडसे, राम राठी, समन्वयक प्रथमेश गोखले, संदीप सदाफळे यांच्यासह ढोल पथकाचे इतर सदस्य उपस्थित होते.

36. Guarding the Guards of Society :

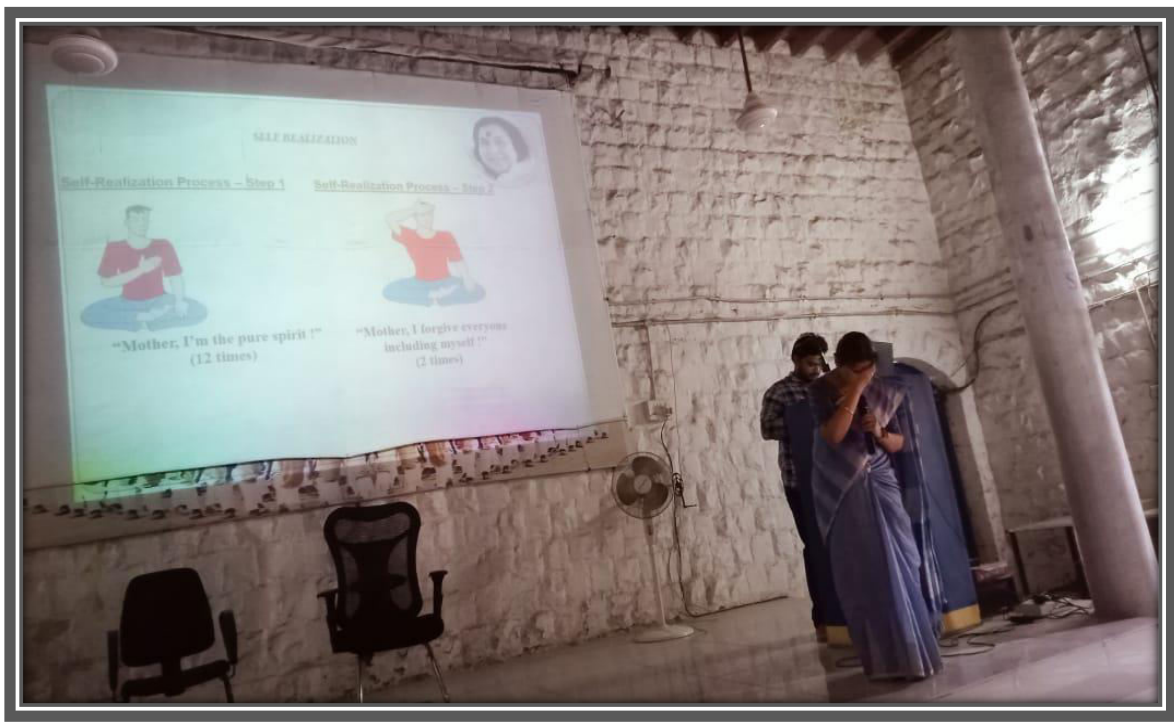

The institution is fortunate enough to be beacons by a devoted and dedicated Principal. Post Pandemic we all face a challenging period where we struggled to survive physically as well as mentally. This kind of struggle is faced by the Protector of Humanity too. To Guide them with beaconing power within our Respected Principal Dr. Smita Shingrup with her team trained the police jawans under training with Sahaj Yoga and Meditation for 3 days from 16/09/2022 to 18/09/2022. 368 trainees were present.

37. VERMI COMPOST DONATION :

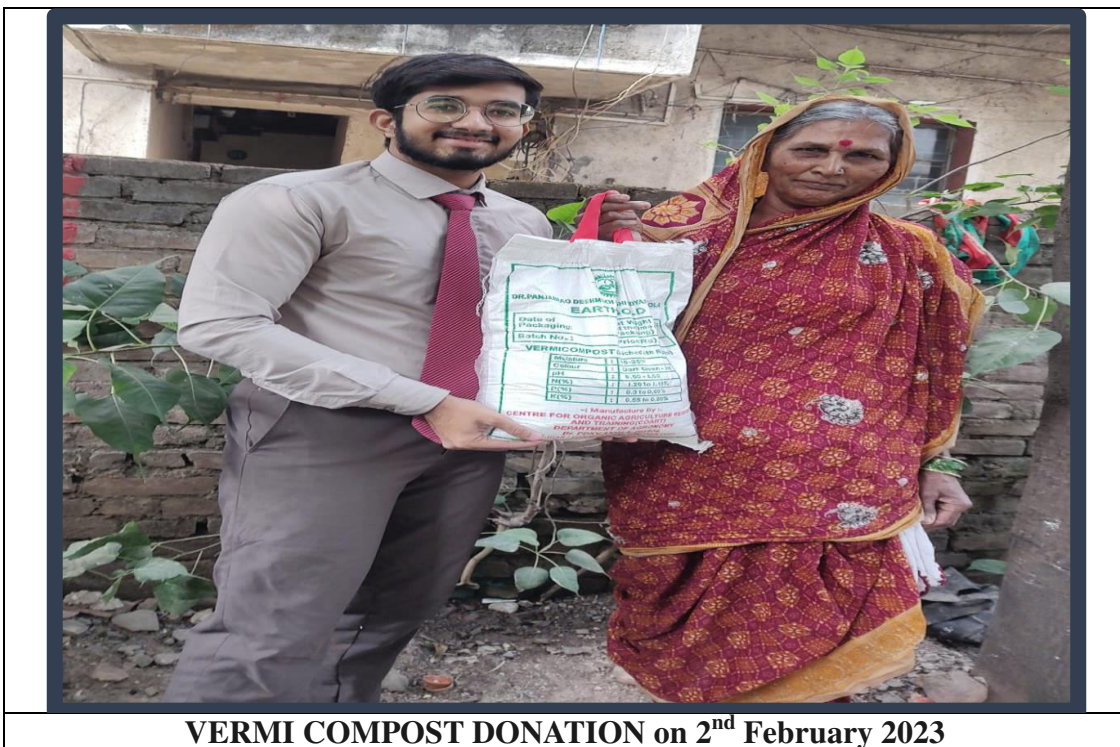

To celebrate Sustainability, Vermi Compost was donated to farmers families. Our college, Smt. Maherbanu College of Science & commerce, Akola, recently donated nutrient-rich vermicompost to local farmer families. Made from organic waste, this compost enriches soil and promotes healthy plant growth. A small step towards a greener, more sustainable community. The compost was donated on 2nd February 2023. The vermin compost technique is a blend of traditional or indigenous knowledge infused with scientific ways of producing and applying vermin compost. Vermi compost enhances soil biodiversity and the population of microbial communities that further improve soil health upon which agricultural production depends, positively impacting human health, flora, and fauna. To create awareness about the several benefits of Vermi-compost, College donated Vermi-compost packets to the families of farmers. The compost was collected from Dr. Panjabrao Deshmukh Krishi Vidyalay (PDKV) and was donated on 2nd February 2023.
